### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The instant claims are novel and unobvious over the prior art of record. The prior art does not teach or disclose an organometallic complex having the formula (1) as recited in claim 1. The closest prior art is US Patent Application Publication No. 2004/0241493 which teaches also an electroluminescent element having an organometallic complex. However, said complex has a different structural formula from the claimed compounds.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### *Priority*

2. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.
